All kindsa weather

As you race the world's toughest tracks, it's not all sunshine and smiles. Mother Nature's gonna chuck some foul weather attcha. As well as boiling hot sunshine

you'll also have to contend with driving rain and overcast skies. And the race'll get all the more

interesting if all the cars have to hit the pits to slap on those slicks. Let's have a look at today's forecast and see what you'll face.

▲ Cloudy Overcast skies'll cut your visibility. Rain may also mean a slick tyre change.

The worst weather to race in. Grab yer wet wheels and go easy.

Monaco GP. And it's no arcade racer, if you hit the other cars, you'll lose important bits off ver dream machine. Take 'em on the inside to roar through the pack. Sometimes it's best to ignore the rubber marks on the track if you reckon your line's better.

Before starting an F1 season, you can alter

can change the length of a race The amount of damage your car takes can also be altered. Switch to realistic and you'll see wings 'n' wheels fly off.

suspension to take corners better, you'll scream ahead

Before entering a race, Monaco GP lets you learn each track prior to doing it for real.

First up is a free session. This allows you to hit the track and roar round as many laps as you want. Next there's the qualifying session, so go full out for yer best time.

Always enter the qualifying rounds or you'll

automatically start the race at the back of the grid. D'oh!

A Go for pole position in qualifying for some mean times. That's yer best lap yet, but you'll have to go faster to hit the front of the grid.

SOUNDS Apart from whining engine noises and the pit crew that talk to you, there's not a lot to shout about. There's no Murray Walker, which is a shame.

Taking damage As you fight it out for the F1 crown, you're gonna be in for some close battles.

- To let you know when you've taken a walloping, your car's damage indicator on the right of the screen changes colour.
- If it's white then your car's fine but, when it takes a slight bump, it'll turn yellow. If it changes to red, you're in big trouble. Time to get it fixed guick.

A These let you follow the best line on the track, so you'll always know where to go.

Follow the marks and it'll be like you know the road like the back of your hand.

Watch the flags

As you go all out for the driver's championship, keep one eye on the top of your screen

As you race round, coloured flags will appear to warn you and the other drivers. But if you want some serious road rage action, they can be switched off, for some full contact driving skills.

which lets it down.

In the pits

If yer car gets some serious damage during a race, you'll have to take a spin into the pits to get it checked out.

As you head to your team's garage, you can change your car's tyres and add more fuel into the tank if you're running low. Wait for the mechanics to make the changes and accelerate outta the pits.

 Ouch, that's nasty. Your front end's gonna need some attention.

Spin into the pits and get it repaired by yer trusty crew.

A. Go, go, go! There's a race to be won and you've got twelve places to make up

Slam-tastic smashes

Hitting other drivers as you race round each circuit is gonna cause some amazing pile ups. From the narrow bends in Monaco, to the speed straights at Silverstone, there are places where your race can end in a spectacular crash.

Whoah! The green car's rear wing's been torn off. Call the pit lane.

Their wheel's even gone bouncing down the track.

Now you're spinning into the gravel trap, it'll take ages to get going.

GAME LENGTH It's not gonna take too long to complete. The game can be saved at the end of each world, and there are infinite continues. There's not even a multiplayer game to keep its appeal.

Though better than the first release, it's a long way short of what we expect for an N64 game This one'll be pleted befor he day's out.

Rev'n' race

From outta nowhere comes one of the best ever N64 racers. Beetle Adventure Racing is a serious speedster packed with loadsa cool power ups and wicked shortcuts.

You can plough through walls 'n' crash barriers and jump off bridges 'n' ramps to get ahead of the opposition

It even features a brilliant multiplayer game which allows each player to destroy their rivals' precious Volkswagen. Let's get to the grid and check out the best N64 off road runner...

A You've hit the crash barriers and lost valuable seconds

they're both excellent

LOOKS Absolutely stunning, It's got a real solid look, the backgrounds are cool and the vehicles are impressive.

Hit the boxes

Although this is more Top Gear Overdrive than Mario Kart 64, it's not without its wacky moments. To gain continues, you must collect the numbered crates which are dotted throughout the track,

Up to 100 points are available and you need 50 to get a continue. Find the lot and a new multiplayer arena is revealed. There are also Nitro boxes which launch yer car to max power.

new multiplayer arena.

Take control of yer motor

The play controls are very realistic, and you've got no chance of winning if you simply keep yer finger on the accelerator. Each vehicle is rated in three categories, Top Speed, Acceleration and landling. If you've new to the game, sacrifice power for control tracks. Keep yer finger on (3) and press (3) You'll now be able to skid through the sharp corners like a pro

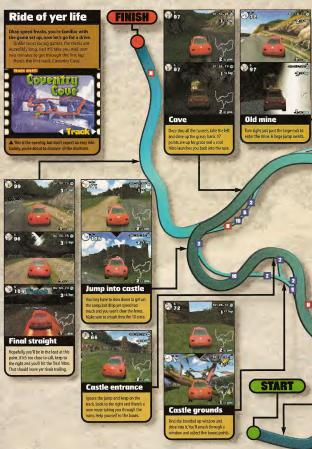

SOUNDS Incredibly realistic. From the roaring engine to the crashing of the crates.

Each vehicle also has a horn, which is fun. For about a minute.

A The Nitro boxes give you a speed boost. You'll get squeezed back into your seat as you pull some serious Gs!

Choose yer view

To please all racing fans, there are three cool camera angles for speed freaks to choose from Two of 'em are from behind the car, but you can get right in the driver's seat if va wanna. Here are the viewpoints,

Behind car near The auto setting and the best choice. You get a great feeling of speed. and enough time to spot a shortcut.

Behind car far This is still well playable but some of the

excitement's lost As you can see more of the track, it's the easiest setting for finding hidden routes So keep 'em peeled.

In car

As always, this is the fastest view option, but it doesn't feel quite as realistic as the others In car's an expert only option, though, 'cos you see the corners and shortcuts really late.

ONE PLAYER With so many shortcuts to find, this'll keep va gripped long after you've completed it. It could use a few more tracks, but you can't have everything.

Four player frenzy

Although only two players can race each other, there's a great four player option. The object of Beetle Battle is to collect the six coloured lady bugs and be the first to reach the finish line. But that's easier said than done. For a start, they change colour, so getting yer final bug can be difficult. Also, there are loads apower ups which'll blow you off the course.

Beetle Battle features loadsa extremely deadly power ups hand if you use 'em well.

ups to strap onto yer Bug. including rockets, mines, and the awesome Stealer, which will turn the opposition into road kill.

opponents won't like it. Shrinking vehicles, foggy view and upside down cars are just a few of the tricks.

Make contact with a rocket and you'll smash a vehicle to pieces. It's not easy getting a clean shot but, thankfully, it can lock onto a car

Stealer

The most powerful weapon in the game. It'll wipe out a car in seconds and it also steals a lady bug. Unfortunately, it can only fly in a straight line.

Health

Restores your vehicle's shield. If yer meter runs out, your car's gonna blow. Make sure you keep an eye on the gauge 'cos it drops with every minor bump.

Has the opposite effect to Health. Drive Into the skull and yer meter takes a huge battering. You probably won't die, but you'll be hanging on by a thread

Invincibilit

Hit the shield and you won't even put a scratch on yer motor, no matter how rough you ride it. Even better, you can crash into the other cars and knock 'em off.

We've taken you through the opening circuit, and you now know all the shortcuts. Let's take a quick peek at some of the other tracks.

Mount Mayhem

Listed as Easy, but it's far more difficult than you may think. The icy surface makes cornering tricky, and you'll struggle to find the shortcuts

A You'll have trouble staying on the

attempts to take off.

Inferno Isle This starts out on a beautiful sandy

beach, but it won't be too long before you're in the middle of a high security dinosaur park.

A This course is like something straight out of Jurassic Park

AT Rex leans over the electric ce and tries to eat ver motor.

Sunset Sands

The Edvotian level is a race across the desert. You can crash right through the Pyramids and drive around the secret tunnels.

Gettin' tooled up with the biggest guns in the business

One of the best bits about Turok are the ridiculously huge guns. Now we've reached the later levels, it's time to meet the big boys. Many later weapons are so powerful they might take time to power up or lock on. Use lower grade weapons like Charge Dart Rifle to stun monsters first.

Cerebral Bore Blue ball which drills thru skull and into brain. Razorwind Cuts through anything when thrown.

Returns like boomerang.

◆Flamethrower Fries enemies.

PFM Laver Shoots mines that

explode when they sense movement.

▲ Firestorm Cunnon Laser machine gun. Sunfire Pod Excellent against Blind Ones, pants on anything else. Enemies are blinded and paralysed.

▲ Nuke Extremely powerful revolving gun. Pieces need to be found. Scorpion Missile Launcher Two missiles throw enemy in the air. Two tear 'im up.

Level six

The Primagen's Lightship

Let's finish this level and finally face the evil one

You've recalibrated three power generators, now there are just a few little details to take care of. Patience now.

The first Assembly Plant

Not far to go now. You're a fair way through the Primagen's mysterious craft. Now all you need to do is finish the job.

Next door to open is to south east.
Follow to warp. Take out all Turrets. Go
through one of the east doors...

... you'll find Capacitor. Watch for Troopers. Whack both switches to open way to warp. Go through.

▲ Cross platform, go up stairs to left. Hit switch. Then go other way at junction. Follow path, hit switch at end

▲ This opens doors. Dash across, straight through. Carry on and take elevator up. Hit switch on balcony.

▲ Hop onto moving platform, get Capacitor. Go up onto other balcony, hit Portal Switch

▲ Bash lock off this cabinet, then blast machinery to blow first Assembly Plant. Hit red button on console.

Other Plants

Two more plants to destroy to scupper the Big P's plans Each Biobot Assembly Plant needs to be dealt with in a different way.

Here's how to turn the final two to rubble.

▲ Through door to the side you'll see Talisman Portal. Remember this, you'll need it in a moment. Go through warp.

 Follow glass walkways to consoles Grab Capacitor, blast console. Get Feather from behind this console...

cells from the pillars. You'll need em! Go through warp on the balcony. Don't bother trying to shoot the plant up, it won't work.

Destroy the Assembly Plant by swapping blue cells for red from the barrier. Just walk up to 'em when you've got the red cells and it'll blow automatically.

The really, really big fight Ding dong, Nuke calling!

Be sure you're healthy and well stocked on ammo. The Flesh Portal

Take lifts up to find two more valves, these open doors below. Go through these doors to find two more valves! Twist 'em!

A Head into last room, splatter Flesh Lord. Pick up Nuke piece. You've got the biggest gun in the whole world ever.

... the last generator! Do your thing! To make your job easier, swap red laser cells with blue ones again. Go to the back of the room and dive into water.

A Swim south to find underwater passage. Kill Filte and hit switch to turn off third Force Field Generator, Go back through warps to start.

Cleaning up

Are you ready to kick boss alien buttp

You could go and fight the Primagen now if you wanted. However, it's best to go and tie up a few loose ends first.

These include the final generator you've gotta seek and destroy.

A There's one generator left. Where is it Head through the second door that opened (to north west).

A You need to go through this room and all the pipes. The platforms are tricky, so be careful when you jump...

... 'til you reach this Eye of Truth tile. Careful when walking on these mysterious paths...

- ... 'cos it's easy to fall off. Step onto the platform you see, which will lead you to the last Field Generator. Hit the switch and head back to the

- Once all the Force Fields are down, there's just one last beastle to face. This one's a doddle compared to what you are about to face. End the 'bot.

you can grab ver final Primagen Key, Go thru final door,

Mother

Killing your mum is harder than it seems

Mother is probably the hardest boss you'll face in the game. She's even nastier than the Primagen.

Save your game before this fight! If you're low on lives, you WILL die horribly. So don't take any chances.

Turn Auto Aim off. It aims at the wrong bit. It'll shoot her chest when you need to blast her arms.

rocks down before crashing to the floor again. So keep moving. There are power ups on outside of the room. Shoot her arms again.

Mhen she sprouts legs, start run like hell! Face her and run backwards while aiming lead at her head. Run around and strafe over ammo and bealth at the same time. It's not easy! When you've hurt her enough, she'll run away. The big jessie.

Primagen Keys

Before you can go whack the Primagen, you need all six of the Primagen Keys to gain entry to his level.

Now you've got all the Talismans and all the weapons it won't be a problem. So here's how va do it.

Port of Adia

River of Souls

A Near exit portal, climb onto balcon which looks down onto platform with barrels opposite Talisman Portal. Jump down, blow up barrel in corner. Follow watery passages to Leaps of Faith and do them. Follow path to the second Key!

The Death Marshes

In third area, dive into the swamp behind the building. Look for hole in river bed, follow it along, Climb the ladders in the new area to get to the Key, then swim against the current to get back. The Torpedo Launcher really helps for this. Or try tapping

the Primagen Key.

the C-Buttons when you swir

A On clifftop at start, go left instead of right. Step on the Whispers Tiles. On the clifftop, jump down to next area. Drop into pit, kill Blind One in dark corner, flip switch. Get key from door that opens, use in slot. Kill spiders, enter teleport.

Hive of Mantids

A In the last area, dive in the to and take the underwater passage. This time, stay on raised walkway. Follow path through teleporter to Eye of Truth tile. Follow hidden walkway to the Key, but watch for Soldiers on the way!

The Primagen's Lightship

If you can't find this one then you really shouldn't be playing

this game! Deactivate all four Force Field Generators and grab the key from Now you've got all six

the start room. Keys, exit the Lightship at the warp, and the Altar will open. The way is free to the big boss.

The final battle

Eat Nuke, Primagen, Turok's comin' after va

This boss battle's actually easier than the Mother battle. You still need plenty of ammo 'n' health, though. Be careful. Take a deep breath, shout "I... AM... TUROKI" and get ready.

Slot all the keys into the Altar and prepare for the final battle. The ground will open up beneath you

After the movie, avoid the bombs he drops. Then shoot down his flying flunkies with something like the Plasma Rifle.

A Blow up the flying things and he'll come out again. This time, aim for his big claw (it'll flash to show you which one).

Whack him while he's trying to regenerate it again. He'll retreat and send hundreds of bombs and flying things after you

◀ You wanna blow his head off with something with a little kick? That's right, yer trusty Nuke. You had fun gettin'it, may as well us it. Hold down your fire button for five seconds and let go...

The end

Wow! How big was that game You destroyed the Primogen nd saved <u>the</u> Lost Lond og But heed Adon's wornings, 'cos it sounds like Turok'll be

comin' bock..

▲ Listen to Adon's words carefully. Does this mean Turok will return some time soon?

Multiplay guide pt1

Some say Turok 2 multiplay's better than Goldeneye, and it's massive, head mashin' fun. Let's go kick ver mate's butt!

Frag lessons

All the info you need to be a Turok 2 multiplay master

Many tips are the same for any multiplay game. But there are features of Turok 2 which are unique, so a few extra pointers'll come in handy.

A In the Options menu, adjust the brightness for a better view in dark levels. Also, set Player Speed to 5 and Stick Sensitivity to 5 for best playability.

A If you're playing Frag Tag and you're the monkey, press 2 to make it scream, It'll really wind up the hunters and may make them miss their shot!

▲ Of course, knowing the levels will allow you to run circles round ver mates. Weapons also always appear in the same place, so know where they are and you're laughing!

As there's no radar in this game, you've always gotta look at the other player's screens to make sure you're not walking into an ambush.

the ability to bounce off walls, while others can shoot straight through water. Take five and study the weapons guide.

slow, but with strength like this,
who peeds record?

Wicked weapons

All of the weapons in Turok 2 are great dealers of destruction, but some work better in certain situations.

Here's a brief rundown of some of those featured in the game

A Crossbow The default weapon, crude and not very effective. Although puny head shots are lethal.

Rifle Quite weak (only 5-10 Hit Points damage), but can be used to set up a more deadly attack.

Connon Each shot does little damage, but a rapid fire rate means a lot of shots'll hit home.

Close Quartered

A small level with loadsa sneaky, sharp turns. A great two player stage. Follow the low path for a Cerebral Bore and 50 Health.

Vulcan's Forge

▲ Scorpion Launcher Jump on moving platform in centre of large pit room. Cerebral Bore and 50 Health are found on pillar in middle of large room.

Mirrororrim & Snap

A Two main rooms here. One with large pit and two small pillars, the other with large pillar and two small pits. Cerebral Bore's in large pit.

Large pit is good for ambush. Your r can't avoid a Cerebral Bore attack if they come down there with you. 50 Health in tunnel joining the two rooms

The rifle from the first Turok game returns with slight tweaks. It's like a weaker Mag 60. When using this, always go for head shots.

A Plosmo Rifle

Enter the space age with this aw blaster. If you use its Sniper sight, make sure an opponent doesn't sneak up on you while you're zooming in.

Level overviews

Learn these and thrash your mates

Many levels exist in both the Blood Lust and Frag Tag levels However, many Frag Tag levels are almost identical to their Blood Lust brothers, except for small details, like water replacing ladders,

A bleak, twin sunned desert world only populated 'cos its near to several important hyperspace routes. Mos Eisley is full of smugglers, pirates and space bandits.
